INOVA

A new brand. A new challenge.

Inova is a premium brand distributed by SBS positioned below this.

Preserve the brand image of quality attributed to SBS.

Offers products of aggressive price and high technological content.

Products with high turnover and sales volumes.

Objective is to oversee all the mass market with products from the highly competitive price.

Ever-expanding product line

The packaging keeps the same size as that of the mother's line and is composed of a heat-sealed bivalve.

Positioning within the layout is contiguous to the mobile phone line of SBS.

Electric Protection

ECO SBS
GREEN EVOLUTION

SBS has recently Introduced some important news to protect the environment inside its range of products . These new devices are not only useful but also necessary in terms of energy saving and CO2 emission.

ECO SBS
GREEN EVOLUTION

Electronic equipments are always connected to the electricity network and for this reason exposed to current peaks generated by storms and power failures. The repairing cost usually is more expensive than the value of the correspondent equipment and many times it is necessary to buy a new device. SBS offers a wide range of SP that defends electrical devices from current peaks. The included warranty **up to 250.000 euro** is an extra proof of the reliability for SBS products.

SP3153T

Multi-socket with protection against current peaks and short circuits. Remote control with wall support to switch on and switch off the multi socket. It has luminous LED's to show the protection status, on/off/reset switch, children protection system and a 150 cm power cord.

Warranty: 240.000 €

Max current: 22.500 A

Sockets: 4

Protections: line tel/fax/modem (RJ11) and coaxial TV Cable

SBS

.BIREADY

.BiReady is the technological solution at the need for long lasting batteries always ready to use. This type of battery combines the advantages of alkaline batteries at the convenience of rechargeable batteries. You buy this battery just ready to use, as an alkaline battery, and you can recharge it using a standard battery charge. Each battery can be recharged hundreds of times. .BiReady is a friend of nature because allows to replace hundreds of alkaline batteries avoiding their disposal. If you keep them properly, you can have more than 90% of charge after 6 months and more than 85% of charge after one year.

A1000AAA2 Rechargeable Batteries .BiReady AA 2000 mAh Ni-MH.
